

CERTIFICATION

**The benefits of MBE
Certification really boil down to
one word: ACCESS.**

Most Fortune 1000 companies in America have supplier diversity programs to source products and services from minority owned businesses to keep their businesses in line with the shifting demographic profile of our country. These companies recognize that a diverse supply base offers a competitive advantage in today's multicultural business economy.

Certification gives MBEs access to access to contracts, access to markets, access to capital, consulting services and technology programs which helps to close the gap from 333 to 15 years to economic parity. Finally, the MMSDC team established the Gold Standard for certification and bring authentic certified MBEs to the marketplace resulting in driving wealth into underrepresented communities.
