

DPSCD 2024 – 2025 ASSESSMENT CALENDAR

Purpose

This assessment calendar outlines all required national, state, and District assessments for the upcoming, 2024– 2025 school year. We have continued to structure and consistently align our administration dates across both state and District assessments to minimize disruptions to instruction and improve overall assessment data quality, comparability, and use.

Because national and state assessment requirements may change throughout the year, this calendar will be updated as needed.

Important Features

Continued Targeted Administration Dates

Adhering to the targeted administration dates minimizes disruptions to learning and helps Detroit families become familiar with one common assessment calendar.

Continuation of Fall College Board Assessments for Grades 8–11

Students in grades 8–11 will once again have the opportunity to experience the digital test platform and format in the fall. This will allow students, particularly those in 8th grade, to build familiarity with the test before the Spring administration.

Addition of End-of-Course Assessments for Grades 9–12

To reduce the variation in assessments used to measure student learning in core content areas in high school, the District has added select end-of-course assessments to the high school assessment system. These assessments are standards-aligned and will provide a better reflection of where students are in meeting their required learning targets.

Removal of District Science and Social Studies Benchmarks for 11th Grade Only

Because of the implementation of end-of-course assessments, District Science and Social Studies benchmarks have been removed to reduce the testing burden for 11th-grade students. These students should now take the Science and/or Social Studies end-of-course assessments for their scheduled courses.

Students Rise. We all Rise

DPSCD does not discriminate on the basis of race, color, national origin, sex, disability, age, religion, height, weight, citizenship, marital or family status, military status, ancestry, genetic information, or any other legally protected category, in its educational programs and activities, including employment and admissions.
