Notification of Pesticide Application

This is to notify you that the Blackwell Institute located at 9330 Shoemaker, will receive a treatment of a pesticide application on Saturday, April 12, 2025, for Oriental Cockroaches throughout the building including janitor's closets, restrooms, hallways, the kitchen/cafeteria areas, areas with interior floor drains, exterior drains that are near the building, and any other areas deemed necessary.

Terminix-Ehrlich Services, a licensed pest control contractor working for the District, will apply the pesticide treatment.

Sincerely,

Michael A. Flowers, MSA

Assistant Director

Detroit Public Schools Community District
